

Unity Chemical Dependency

IT'S YOUR DIGNITY. **recoverit.**

WHEN YOU ARE STRUGGLING WITH AN ALCOHOL OR DRUG PROBLEM, it can be overwhelming. It affects every aspect of your life. It damages relationships, ravages your body, and can cost you your job. Unity Chemical

Dependency is the Rochester area's most experienced treatment provider. Our highly trained and dedicated team has helped thousands of people gain the skills needed to replace a life of substance abuse with one of hope.

THE FIRST STEP to entering treatment is to schedule a confidential evaluation at one of our three conveniently located clinics in Brighton, Greece, or downtown Rochester.

We'll conduct a comprehensive evaluation, including an alcohol and drug screen. Based on the results of this evaluation, we'll outline the different options available to you. Our programs include outpatient detoxification, outpatient treatment, inpatient rehabilitation, and residential care. Within this broad range of services, we provide many specialized programs to offer you a personalized and positive treatment experience.

Call **585-723-7740** or visit unityhealth.org for more information or to schedule an evaluation.

WE UNDERSTAND WHAT YOU'RE GOING THROUGH. We want you to know that there is hope. There is help. You can recover.

OUTPATIENT TREATMENT. Personalized treatment programs are available at our three outpatient clinics. We offer individual and group counseling, as well as family education and support. Our outpatient programs include:

- **Outpatient Detoxification.** This three- to five-day medically supervised program helps clients physically stabilize from alcohol and certain drugs while living in the comfort of their own home.
- **Teen Programs.** Tailored to the different learning styles and developmental needs of teenagers, these programs help teens pave their own path to lifelong recovery – while including their family in the process.
- **Young Adult Program.** We address life issues that young adults often experience in a positive way that facilitates long-term recovery.
- **Older Adult Program.** We consider older adults' unique physical, environmental, and social needs to establish the foundation for lasting recovery, as well as address any underlying medical issues.
- **Co-Occurring Disorders Programs.** For many, substance use disorders can go hand-in-hand with mental health disorders. This uniquely designed program integrates mental health and chemical dependency treatment to support success in recovery.

INPATIENT TREATMENT. Located in Greece, New York, our inpatient unit provides a medically supervised, educational, and supportive environment. The program includes individual and group counseling, family education and support, management of withdrawal symptoms, recreational therapy, and case management services.

RESIDENTIAL TREATMENT. Unity's community residences provide safe, supportive, and home-like environments located on the Unity Park Ridge Health Care Campus in Greece, New York.

ADOLESCENT COMMUNITY RESIDENCE. Designed for young men (up to age 21) who have been diagnosed with a substance use disorder, this residence offers treatment in a respectful and safe environment. On-site schooling, relapse prevention planning, co-occurring disorders treatment, and family treatment are essential parts of this program.

WOMEN'S COMMUNITY RESIDENCE. This warm setting helps women recover from addiction and make the transition to independent living. The services provided include individual counseling to develop life and recovery skills; career and educational counseling; and family education and support.

A HOLISTIC APPROACH TO YOUR RECOVERY. We treat the whole person – mind, body, and spirit. It all starts with a comprehensive, confidential evaluation.

INSURANCE AND FINANCIAL ASSISTANCE. Unity Health System is committed to caring for clients regardless of their ability to pay. We accept many types of insurance and we provide a financial assistance program for those who cannot afford to pay for all or part of their health care services. Financial aid is provided based on each client's income, assets, and needs. Payment plans are also available for those who qualify.

IT'S UP TO YOU. Take the first step: call 585-723-7740 to schedule a confidential evaluation or go to unityhealth.org to learn more.
